

★★★★★ **It is worth every penny ... Magnifique**, March 20, 2006

By Mr. Philippe A. Thomas (Puerto Rico)

The best method I have found so far to teach French to my small kids (6 & 3 yrs old). They both continually ask for Professor's Toto DVD's, enjoy going through it and memorize its catchy songs.

Major benefits:

- * Native French Pronunciation at regular conversational speed
- * Very attractive cartoons for Kids (using animals,kids,games)
- * Catchy Songs that kids easily memorize
- * No need to know French yourself to guide your kids through it

★★★★★ **Nice Spanish Video**, October 22, 2006

By D. Burns (Galveston, Texas)

I've been looking at lots of Spanish materials for young children. This is one of my favorites for a several reasons. The DVD comes with a booklet that has the script of the DVD printed so you can see/read/study the content of the video. The content contained in both the Part I and Part II DVDs goes through all the basic categories young children learn (colors, numbers, alphabet, my day, prepositions, sport names, everyday verbs, etc). Also, the entire video comes in an English DVD and a Spanish DVD so you can learn what all the video is doing in English and then watch it in Spanish and you will know what all they are saying. It is also great for children learning English also.

I like the fact that the video is made by a group that have studied child language learning and it seems to show with this product.

★★★★★ **Want to teach French (or learn it?) Get this CD!**, November 3, 2007

By the Foursome Family

One of my favorite CDs for learning French. You can't go wrong with this one.

★★★★☆ **Very good**, September 7, 2008

By Emmanuella Joseph (Decatur, Illinois)

Great, my children are 2 and four and ask to watch it by name. They are repeating many phrases from the video.
